Professional Summary

Aspiring Mobile App Developer with experience in Flutter and Firebase. Skilled in developing user-centric mobile applications with real-time data integration, REST API usage, and responsive UI. Strong foundation in data structures, algorithms, and object-oriented programming, seeking to contribute to innovative mobile development projects.

Technical Skills

- **Programming Languages:** Java, Python, Dart, C, SQL, HTML, CSS, JavaScript
- **Mobile Development:** Flutter Framework, Cross-platform Development, Mobile UI/UX Design
- **Backend Technologies:** Firebase, REST APIs, Real-time Database, Authentication Systems
- **Development Tools:** Git, GitHub, Android Studio, Visual Studio Code, MySQL
- **Core Competencies:** Data Structures & Algorithms, Object-Oriented Programming,
- **Web Technologies:** Responsive Web Design, API Integration, Database Management

Professional Experience

Full Stack Developer Intern

Jan 2025 - present

- Engineered and delivered critical features for a mobile application using Flutter and Dart, resulting in a measurable 15% increase in user engagement and improved user retention rates
- Collaborated with cross-functional teams to implement user feedback and iterate on application features, demonstrating strong communication and teamwork abilities

Projects

Blood Donation Management App (Flutter)

present, Ongoing

- Developed a mobile app for blood donation camp management with donor registration, location mapping, and appointment scheduling.
- Integrated Firebase authentication, real-time database, and Google Maps API for secure and dynamic functionality.

Interview Preparation Platform (Flutter)

August 2025

the development of real-time weather data visualization, decreasing the average page load time by 25%; also refactored code, shrinking lines of code by 15% for better performance.

Developed analytics dashboard to track user progress and identify areas for improvement.

◦ Real-time Weather Dashboard (Web)

June 2024

- Developed a responsive weather platform with real-time data and 7-day forecasts using OpenWeather API.
- Optimized performance and added advanced features including weather alerts and location-based updates.

E-commerce Mobile UI Collection (Flutter)

July 2025

- Created sophisticated UI components for e-commerce apps including product catalogs and checkout flows.
- Implemented advanced animations and reusable widgets for improved user experience and maintainability.

Education

Bachelor of Technology in Computer Science & Engineering

Expected May 2027

Aditya College of Engineering And Technology, Kakinada, Andhra Pradesh

- Current CGPA: 7.97/10.0 (First Class with Distinction)
- Relevant Coursework: Data Structures&Algorithms, Object-Oriented Programming, Database Management Systems.

Leadership & Activities

Technical Event Coordinator - Cultural & Technical Festival

August - 2025

- Spearheaded logistics and coordination for major project presentation event, successfully managing seamless experience for over 150 participants across multiple technical domains
- Orchestrated all logistical aspects for the project presentation event, managing a team of 7 volunteers and registration for 150 participants, resulting in a reported 20% increase in participant satisfaction scores.

Certifications & Additional Information

- **Certificates:** C from Cisco, HTML CSS from Centifort, FSD with Flutter from Technical Hub
- **Languages:** English (Professional), Telugu (Native), Hindi (Conversational)
- Google Cloud Associate Cloud Engineer – Certified
